NATURE'S FAVOURITE DESIGNER

Evolved. Designed.

NEWS 2015

PURE NATURE, PURE LIFE.
EVOLUTION VS. STAGNATION. A NEW
INTERPRETATION OF TRADITIONAL
IDEALS. NEW POSSIBILITIES. OR AS
ADMONTER EXPRESSES IT:
WE ENLARGE OUR TERRITORY.

Admonter Evolution describes the transformation from a traditional producer of natural wood floors and wood panels to a multi-dimensional provider for wooden solutions for interiors.

This leads Admonter to innovations that go hand in hand with the path of origin. Admonter Evolution means unique wooden designs on flooring, walls, doors, furniture and even stairs.

A new patent. Stunning!

Admonter's new flush-mount skirting board. Rectangular floor-wall-junction. No annoying lugs or edges. Simple elegance. A sophisticated, complete system providing a solution for a perfect end-result during the physical construction of walls and before installation of screeds. This system consists of 2 parts: a basic profile, preinstalled during the construction phase, and the skirting board.

- Integrated screed-gauge for screed installer
- Suitable for massive walls and drywall-installations
- fine adjustment allowing for the compensation of height tolerances
- optional energy-efficient LED lighting system
- possibility of reducing impact sound transmission
- possible in nearly all types of woods and surface treatments
